

NEVER A DULL MOMENT

by

Charles, Nancy and Ron Manners

Enjoy this quick skip through these selected events from Kalgoorlie's formative century.

It was the very nature of these goldfields people that gave the book its title,

Never A Dull Moment. Many great careers were launched from Kalgoorlie and the chapter on U.S. President Hoover's early start in Kalgoorlie provides a new view of this enigmatic individual. Individuals like Hoover made it possible for the subsequent, significant nickel and gold discoveries to be supported by the most remarkable regional mining service centre in the world - Kalgoorlie.
