CONFERENCE INFORMATION

Participate in the Next Resources Boom

The booming Chinese economy and the resurgence of the other major economies is putting pressure on mineral supplies. Stocks are running down and prices are increasing. Conditions are right for a stock market boom in resource stocks over the next few years.

NSW hosts the largest orebody of its kind in the world at Broken Hill and the highest revenue earning gold site in Australia at Cadia in the mineral rich Lachlan Fold Belt. In addition the Sydney Basin is underlain by vast coal measures that host economic coal and methane gas operations. Collectively the mineral industry is NSW's largest export industry, generating over \$7.7 billion annually.

Key reasons to attend

- 1 Identify undervalued companies with great potential.
- 2 Get the inside story on a resources boom from the keynote speakers and 22 resource companies.
