

CWEDG MEETING

Next Wednesday, 16th of September 2015

Campdale Room, Duntryleague Golf Club, Orange
6.30 for 7.00pm.

Bronwyn Witham & Kevin Capnerhurst
(NSW Geological Survey)

**Introduction to our New DIGS Search Engine and
Enhancements to the Geoscientific Data Warehouse.
There will be demonstrations of both the applications.**

The new DIGS includes:

- Simple text search using a modern search engine
- Advanced text search for constructing complex queries
- All reports can be searched spatially using a map interface
 - Comprehensive sorting and easy filtering of results
- Reports were captured by the latest optical character recognition technology
 - Search is now carried out on the entire report content and metadata
 - Select and download multiple reports at once
 - Search result lists can be exported to spreadsheets
 - Registered users can save their searches and set their preferences
 - All users can share search results via email

The venue is sponsored by the Department of Industry, Skills and Regional
Development

Please RSVP to RME at rmepl@bigpond.net.au or on 63625155 by Friday
11th September 2015 (to help with numbers)
