

**Dan Johnson - Exploration Manager at Aeon Metals Limited**

**Walford Creek Copper Cobalt Project**

“The Walford Creek Copper Cobalt Project in North West Queensland is Australia’s highest grade sulphide cobalt resource with copper. The high priority 100% owned Walford Project is currently being drilled with two rigs both inside the resource and along strike. The talk covers details about the history of the Project, its current status and some details on the geology. A bit for everyone”.

SMEDG Presentation, Thursday 27<sup>th</sup> June 2019
