

Magic Touch of Gold
Inventory, exploration, investment
Geology and gold mineralisation in the Agnew Mining Camp
Vladimir David

In introduction talk describes the current state in gold exploration including: gold inventory and investment in gold exploration in world and Australia.

Further on talk is focused on Agnew Mining Camp, a gold province in Wiluna Belt of Yilgarn Craton. It presents history of mining, past production, geological setting, mineralisation styles and ore genesis models of orogenic gold deposits in Agnew Mining Camp.
