

# TASMANIDES WORKSHOP

## Announcing

A one-day industry workshop on the tectonic evolution of the Tasmanides of eastern Australia.

Here's your chance to get up to date with current ideas on the tectonic settings of mineral deposits in eastern Australia.

**Dick Glen**, with assistance from some others in the GEOLOGICAL SURVEY OF NSW (eg Cam Quinn), will expand his Mines and Wines talk of 2007 and present an informal sit-down, all questions-asked workshop on the Neoproterozoic to Triassic evolution of eastern Australia (Delamerian, Lachlan, New England, Thomson, 'North Queensland' orogens).
