

Vladimir David – Resume

Currently, Vladimir is working as a Geological Consultant supporting junior exploration companies. Prior to this, he worked for Gold Fields in Western Australia as Target Generation Manager, Argent Minerals in Lachlan Orogen as Chief geologist and MMG/Zinifex at Century Mine and Dugald River as Principal Geologist. These recent and previous roles have given him significant experience in exploration project generation, mineral prospectivity mapping, target generation, exploration management including implementation of different exploration strategies and evaluation of mineral properties.

He has more than 29 years of experience in managing a variety of mineral projects across Australia as well as in Eastern Europe (Kosovo, Bulgaria), North Africa and New Zealand.

He holds a BSc Hons Geology (University of Zagreb) and PhD in Economic Geology (University of New England, Australia) BSc Hons (Geology).
