Summary

Exploration Geologist with approximately 5 years exploration experience. Experience includes: greenfields and brownfields exploration, DD, RC, RAB, Aircore drilling, drill programme design, exploration project management.

Career History

Project Exploration Geologist at Minjar Gold

Feb 2019 - Present (1 year and 6 months)

- Regional exploration work at Minjar Gold's Southern Cross operation.
- Part of the team to add ~350-400k oz inferred resource to the Minjar Gold R&R (with two pits to start production in September/October).
- Drill programme and soil sample design.
- POW management.
- Drill rig management.

Project Exploration Geologist at Northern Star Resources

Dec 2018 - Feb 2019 (2 months)

- Regional exploration work at NSR's Jundee operation.
- Drill programme and soil sample design.
- Drill rig management.

Exploration Geologist at Northern Star Resources

Aug 2017 - Dec 2018 (1 year and 4 months)

- Regional exploration work at NSR's Jundee operation.
- Part of the team to discover the Ramone deposit: 4.3m tonnes @ 1.77g/t for ~243k oz early inferred resource. NSR's first open pit mine.

Mine Geologist at Northern Star Resources

Aug 2015 - Aug 2017 (2 years)

- Mine Geologist (underground) at NSR's Jundee operation.
- Underground face mapping and production control.

Exploration Geologist at Northern Star Resources

Mar 2015 - Aug 2015 (5 months)

- Near mine Exploration Geologist at NSR's Jundee operation.

- Soil sampling, mapping, RC, aircore and RAB drill rig management.

Field Geologist at Geoservices Australia (Schlumberger)

Aug 2013 - Apr 2015 (1 year and 8 months)

- On-shore Field Geologist within the Cooper Basin.

Exploration Geologist at Tanami Gold

Feb 2012 - May 2013 (1 year and 3 months)

- Regional and near mine exploration.
- RC and diamond drill rig management.

Exploration Geologist at Thomson Resources

Jul 2011 - Jan 2012 (6 months)

- Greenfield exploration within regional NSW.
- Predominantly core logging, drill rig supervision, mapping and XRF work.

Skills

Safe operator, Diamond drilling, Field mapping, Senior first aid, Micromine, RC drilling, Core logging, RC drilling, RAB drilling, Aircore AC drilling, Soil sampling, Mapping, Brownfield exploration, Greenfield Exploration, Archean Greenstone, Arcgis, Leapfrog.

Good understanding of both French and Spanish.

Education

Master of Geoscience - Macquarie University (3/4 complete)

Bachelor of Science (Hons) Geology - University of Manchester (United Kingdom)
