# DISCOVERIES IN THE TASMANIDES

## 2022

**MINES & WINES EVENT**

Orange, NSW

9-13 May 2022

This will be the 8th incarnation of this iconic and unique event and will attract about 250 registrants including project geoscientists in the mining and exploration industry, service providers, plus government and academic specialists.

This conference is renowned as a forum for exploration and mine case studies as well as scientific advances in understanding the tectonics and metallogensis of the Tasmanides.

**Mines and Wines** is about presentations by geoscientists for geoscientists.
