

SMEDG - Thursday April 28, 2022 at 5.30pm for 6.00pm at Club York

Nicole Galloway Worland will be speaking on

**“Innovative In-Situ Recovery of Copper-Gold - A Green Alternative to Conventional Mining”.**

Nicole Galloway Worland B.Sc. Geo (Hons), MAIG, FGAA

Nicole Galloway Worland is a passionate South Australian-based geologist, with more than 30 years' experience in Australian, Eastern European and South American mining and exploration jurisdictions. Her experience spans from exploration through project evaluation to open-cut and underground mining; with a commodity focus in gold, copper-gold, base metals, lithium and uranium.

Nicole is Managing Director of Thor Mining Plc and non-executive director of EnviroCopper Limited.

Nicole is actively involved in the Australian Institute of Geoscientists at both the federal and state level, as Director, and state Chair. She also chairs the annual South Australian Exploration and Mining Conference (SAEMC).

As usual we would like to see as many as possible at the meeting  
However, for those who can't attend we will also be going out on Zoom. To register for the meeting via Zoom please follow [this link](#), however please do not use this as a reason not to attend if you can be there!
