

Congratulations to Fiona Czuzman!

We are thrilled to advise all that Fiona has been awarded the Minerals Council of Australia's "Exceptional Woman in Victorian Resources" for 2024.

Many of you know Fiona, who has been a tireless worker in helping to organise and manage events for SMEDG, including in managing bookings for the Harbour Cruises and various conferences amongst others.

This award recognises the exceptional achievements of women in the Victorian resources sector, in any occupation. It recognises professional success and leadership skills, resilience, methods of overcoming barriers and seeking out and accepting new responsibilities and challenges.

This work may include a commitment to community engagement and development, contributing to inclusion and diversity within the sector and sustainability initiatives.

A link to the page announcing the awards is [here](#).

We would like, on behalf of all SMEDGERS, to pass on our hearty congratulations to Fiona, and also pass on our thanks for many years of sterling service to SMEDG, and the broader industry.
